Free Hepatitis B Vaccine to Newborns

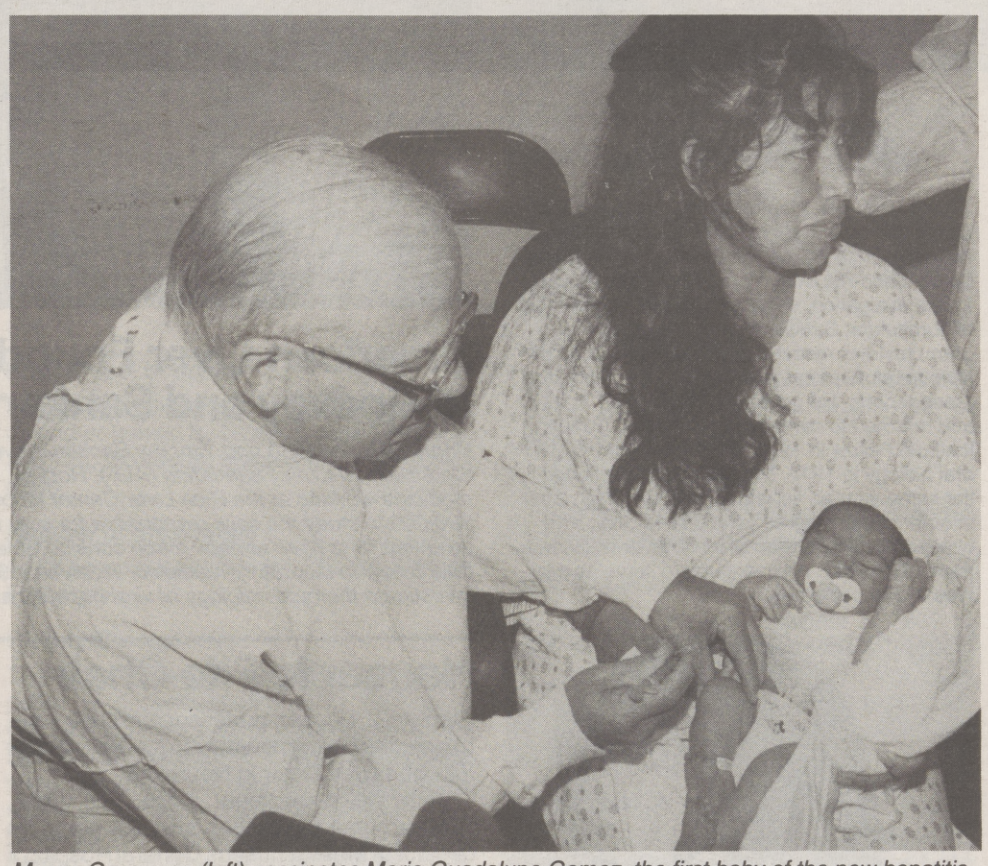
The approximately 14,000 babies born in this city every year will receive free vaccinations for hepatitis B thanks to a $750,000 grant from the Centers for Disease Control to the SF Department of Public Health.

Under the two-year program, all babies born in San Francisco will receive the free vaccination before they leave the hospital. San Francisco is the only city in the country and SFGH the first city hospital to mount such a large-scale vaccination program. Hepatitis B is a greater public health problem here than in any other city in America. In 1990, the rate of reported hepatitis B illness in the city was about twice the national and state averages.

Children will be given the vaccination in three doses — the initial shot, a second shot at a pediatric clinic or office one to two months later, and a third shot six to 18 months after that. The most common side effect of the shot is tenderness at the injection site. A small number of children also may develop a fever. The vaccination is expected to last a lifetime.

"San Francisco has large numbers of new immigrants, and the risks in this city are higher than in other communities," says UCSF pediatrician Moses Grossman, chief of pediatrics at SFGH and chair of a local advisory committee on the project. Children who are at highest risk of infection are those from areas of the world where the disease is common, such as Asia and Africa.

The incidence of hepatitis B in the US, however, has been on the rise as well — jumping 37% since 1979. With more than 1 million people carrying the virus, it is estimated that up to 6,000 will die from hepatitis B-related problems such as cirrhosis and liver cancer, and up to 300,000 new people will develop infections every year.



Moses Grossman (left) vaccinates Maria Guadalupe Gomez, the first baby of the new hepatitis B program. Holding the infant is her mother Amanda Augustin.

Hepatitis B is sexually transmitted, but also can be transmitted through contact with infected blood and body secretions, as well as through the sharing of toothbrushes and razors or other means. Although not as deadly as AIDS, hepatitis B is 100 times more contagious. Statistics show that a child living in a household where a family member is a carrier has a 17% chance of becoming infected, Grossman says. A child also may contract the disease from her or his mother at birth.

While the symptoms of acute hepatitis B include appetite loss, extreme tiredness, nausea, vomiting, stomach pain and jaundice, many infected children show no symptoms, so that parents and doctors alike remain unaware of the presence of the virus. Some sufferers recover from the initial attack; others, however, become chronic carriers and remain infected for life.

Of special note: William J. Rutter, UCSF's Hertzstein Professor of Biochemistry and former director of the Hormone Research Institute, is responsible for cloning the gene for hepatitis B which led to the creation of the genetically engineered hepatitis B vaccine.

Budget — So Far, Holding Our Own

How is UCSF doing with the state budget? According to Chancellor Krevans, while the news certainly is not good — layoffs and canceled programs, etc. — we are, for now, holding our own.

At a campuswide budget forum last Monday, Krevans said that no new cuts will have to be made in central administration services for the 1992-93 budget. Since May, 170 positions have been eliminated whether it be through layoffs, early retirements or not filling empty positions. He emphasized that these are non-academic positions and that the Schools have made their own series of cuts. He also said that there will be very few, if any, new layoffs in central administration for this fiscal year.

Krevans explained that the state's cut resulted in UCSF's general and FTE funds budgets going from $172 million to $159 million. Administration, which receives approximately one-third of that money, is absorbing 50% of the '92-'93 cuts, and academic programs, which receive two-thirds of that money, are absorbing the other half.

Krevans admits that administration took a disproportionate cut, but says that the decision will help maintain UCSF's academic excellence. In making that decision Krevans emphasized that useful, but not essential, services and programs had to be cut, and that layoffs were taken at every level without affecting UCSF's diversity. "Our layoff table was at every level," he said. "We did not lay off those at the lowest levels." As an example, Krevans referred to the elimination of three vice chancellor positions on this campus, which reduced the number from seven to four, and in turn has led to the restructuring of several campus units.

Next year's budget *will not* be a bonanza, Krevans warned. Campus administration's budget cuts this year will help to compensate for the possible lack of state funds. "The core central administrative activities were downsized with the hope that we could operate without going after our own family year after year," Krevans said. He added, how-

"Weekend of Caring"

It was Sunday, and Ellen Kuwana from the Department of Physiology did not go to a movie, did not do some chores, nor take a drive north. Instead, she spent a few hours delivering meals to AIDS patients through Project Open Hand. Ellen was one of dozens of campus people who spent their October 24 weekend helping service agencies in need during "Weekend of Caring," the kickoff to the UCSF United Way Campaign. The actual campaign ran the following week, October 26 to November 6. If you haven't mailed back your donor envelope as yet, it's not too late, but please do it now.

"Sleazy Lounge Lizard" to Raise Funds for UCSF Cancer Research

Peter Cooperstein, the owner of Amici's East Coast Pizzeria, is a generous man with many friends. One of his closest is Mark Hamlin, whom he has known for over 25 years.

Mark has been coming to UCSF for treatment over the last several months because he is suffering from lung cancer.

To honor Mark and raise money for UCSF's lung cancer research, Peter is hosting a fundraiser on Monday, November 16, at his pizzeria at 2033 Union Street. Not only will you get all the pizza, fresh salads and pasta you can eat — and beer and wine you can drink — but you will be able to watch "The Fabulous Bud E. Luv Show."

Dinner at the pizzeria will begin at 7:30 p.m. with Bud E. Luv taking the stage at 8:30 p.m.

If you've read the *New York Times*, *The New Yorker*, *Spin* or the *San Francisco Chronicle* lately, you know that Luv has received rave reviews wherever he appears. Sporting that forever-handsome pompadour, and wearing an ever-so-smart smoking jacket and a grin seen only on sleazy salesmen, Luv is the quintessential Las Vegas lounge lizard. Working his way through songs you probably never, ever wanted to hear again ("Mack the Knife," "Danke Schon," just to name a few), Luv, according to *The New York Times*, "has deadpan accuracy. His tributes to Sammy Davis, Jr. and Tom Jones reveal that technically he is almost as good a singer as those he mimics."

Luv, whose real name is Bob Vickers, also is a long-time friend of Mark's. "This was a good way for Bob and me to join forces. We will be mixing great food with a very funny show for something serious: to raise money to help save the next person who might get lung cancer," says Peter.

Tickets for the fundraiser are $50 each or $75 per couple. Amici's will partially validate parking at the Union Street Plaza Garage, which is next door to the restaurant. Advance ticket reservations are recommended. Call Amici's at 885-4500.

Fresno Assemblyman Asked to Join UCSF

Assemblyman Bruce Bronzan (D-Fresno) announced in late October his resignation as a member of the California State Legislature to accept an appointment as associate dean for Administration & Development for the School of Medicine's UCSF-Fresno Medical Education Program. The appointment is subject to approval by the UC Board of Regents.

Bronzan has been the principal advocate for a downtown regional medical center in Fresno. According to Joseph Martin, dean of the School of Medicine, Bronzan's appointment will serve to make UC a firsthand player in local discussions about such a center.

Established in 1975, the UCSF-Fresno Medical Education Program seeks to train and retain physicians in the Central Valley, traditionally an underserved area. Through

(continued on page 2)

Gazette

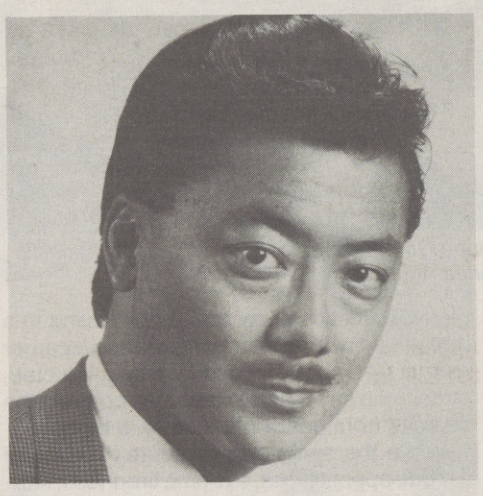
Honors & Awards

Merle Sande: Elected president, Infectious Disease Society of America, for a two-year term which began in October. Sande is professor & vice chair, medicine; chief, medical services, SFGH.

J.B. Molaghan: Received the Community Service Award on October 23 from the Bay Area Physicians for Human Rights for the outstanding community service and nursing care he exhibits caring for AIDS patients at SFGH's Ward 86. He also serves on the Mayor's HIV Services Planning Council, which allocates Ryan White funds to AIDS care and service organizations in the city. Molaghan is nurse practitioner & administrative nurse, AIDS outpatient clinic, SFGH.

Appointments

Troy E. Daniels: Named associate dean, academic affairs, School of Dentistry. He oversees faculty counseling, appointments, merits, development and the School's accreditation, as well as the evaluation, development and coordination of curriculum. Daniels plans the academic program, reviews research proposals and is responsible for student evaluation of courses and progress reports. He graduated from UCSF in 1967 and returned to campus as a National Cancer Institute Fellow in 1971. After receiving his MS in oral biology in 1973, Daniels joined the faculty the same year as assistant professor. He was director of the Sjogren's Syndrome Clinic and chaired the SF Division of the Academic Senate from 1990-1992. He continues to serve as professor, oral pathology.



Issa Eshima: Appointed director, plastic & reconstructive surgery, UCSF/Mount Zion. While helping to establish the Cancer Center at Mount Zion, he plans to emphasize breast reconstruction, head and neck reconstruction, microsurgery and cosmetic surgery within his division. A 1980 Phi Beta Kappa Stanford graduate, he recently completed fellowships at New York University and the Manhatten Eye, Ear & Throat Hospital. Eshima graduated from our School of Medicine in 1984, the same year he received the UCSF Galante Scholarship Award. He completed his internship and residency in the Department of Surgery and continues to serve as assistant professor, surgery.

American Liver Foundation Awards to Rockey and Sankary

Don C. Rockey (left) and Timothy Sankary have received awards totalling nearly $100,000 from the American Liver Foundation (ALF). Rockey, an assistant physician and clinical instructor of medicine working at the Rice Liver Center laboratory at SFGH, won a Liver Scholar Award for $90,000 to study the cells responsible for scar tissue formation. The three-year award supports scientists who have already made considerable progress in liver research. Sankary, a postdoctoral fellow in laboratory medicine, received a $7,500 ALF postdoctoral research fellowship to investigate the epidemiology of viral hepatitis among blood donors.

Hauser Is Fife Chair

Stephen L. Hauser, professor and chair, neurology, has been appointed to the Betty Anker Fife Endowed Chair in Neurology.

With the department since July 1992, Hauser came to campus after six years as director of Massachusetts General Hospital's Laboratory of Neuroimmunology. His research interests lie in autoimmune disorders of the nervous system, particularly multiple sclerosis and related diseases.

The chair honors the mother of William Fife, a UC Berkeley metallurgy graduate and Nevada native who spent his professional life in mining, and was a generous donor to our campus for more than 20 years.

State Award Goes to Vietnamese Health Promotion Project

The UCSF Vietnamese Community Health Promotion Project received an Award of Distinction from the California Department of Health Services at their conference in Los Angeles on September 30. The award recognizes the Project's public health education efforts among Vietnamese youth, warning them about the hazards of smoking. Accepting the award was Anh Le, tobacco education coordinator of the Project.

Stephen J. McPhee, associate professor in internal medicine, is the Project's principal investigator, while Chris Jenkins serves as the Project's director.

Nominations Open for MLK Awards

Nominations are being sought for the annual Dr. Martin Luther King, Jr. Awards to be given during Martin Luther King Week, January 11-15, 1993. Three awards will be presented — one each to an academic faculty member, staff employee and student. Anyone from the campus community may nominate.

For further information, including a full list of criteria and nomination forms, call Pauline Bowden in the Affirmative Action/Equal Opportunity Office at 476-0733. Deadline for submissions is Wednesday, November 25, by 5 p.m.

Under the theme "Where Do We Go from Here? Nonviolence: Learning It, Living It, Teaching It," the 1993 MLK celebration will include activities on Parnassus, at Mount Zion, MCB and SFGH. Watch for posters and detailed stories in the next two issues of *Newsbreak*.

Publications

Charles J. Epstein: Co-editor, *Down Syndrome & Alzheimer Disease* (Wiley-Liss, New York, NY, 1992). Epstein is professor, pediatrics, biochemistry & biophysics.

Budget *(from page 1)*

ever, that if the budget cut next year is of the same magnitude as it was this year, as it very well may be, then "those cuts will not be achieved without major program reductions."

While student enrollment cuts and higher fees still are being debated, Krevans said that the current thinking is that health sciences enrollment shouldn't be cut. There is talk that student fees most certainly will be increased next year, with very substantial increases for those in law, veterinary medicine, medicine, dentistry and business. "But, still the fees would be thousands of dollars less than at comparable institutions," he said. As an assurance he added, "But, when the fees go higher, so does the financial assistance."

One of the questions posed to the chancellor was whether UC now is being penalized for being an elitist institution with large compensation packages and high salaries for top UC executives, including chancellors. Krevans said that UC had been singled out, but did not receive much more of a budget cut than the State University system did. "I don't believe UC would take an enormous leap forward if it reduces the salaries of its chancellors." He added that data provided to the Office of the President showed that chancellors make up to 30% less than heads at comparable universities.

In terms of the 1993-94 budget, Krevans said that The Office of the President will be discussing it by the end of the year and will be presenting a proposed budget to the UC Regents by the beginning of next year.

What the new state budget will mean to UC, and in particular UCSF, remains to be seen.

UC Biotech Awards

Proposals are due for the UC Biotechnology Research & Education Program on Friday, November 20, in the office of Academic Services, Room S 115, Box 0400. The program solicits three different kinds of proposals — science & biochemical engineering; education challenge grant on biotechnology & society; and societal impact, public policy & public education. Prospective proposals should first be discussed with UCSF executive committee member C. Anthony Hunt at 476-2455.

Bronzan *(from page 1)*

the program, three Fresno hospitals — Valley Medical, the VA and Valley Children's — serve as teaching and training sites for more than 100 students and housestaff.

"The Fresno Program has focused on filling an important mission in primary care medical education and physician recruitment in California's Central Valley," says Martin. "Bruce Bronzan will strengthen our efforts in carrying out this mission."

Although *Newsbreak* generally does not announce appointments prior to UC Regents' approval, this appointment proved the exception once Bronzan had informed his office staff, constituents, and the Fresno media of his decision.

Bronzan's decision to join UCSF caps an 18-year career in public office. He first won election in 1975 to the Fresno Country Board of Supervisors where he served for eight years. In 1982 he won election to the 31st Assembly District in Central California, and in 1988 was appointed chair of the Assembly Health Committee.

As a staunch advocate for the underserved, he has authored major legislation in a wide variety of health areas, including realigning state and county health and welfare programs, creating programs funded with tobacco tax revenues, improving workers comp health care, requiring doctors to provide women with written information on the risks of cosmetic surgery implants, and conforming California law to the federal Americans with Disabilities Act.

UCSF *Newsbreak*

UCSF (ISSN0891-6063) Volume 7, Number 20, November 7-20, 1992. Published by the University of California, Third and Parnassus, San Francisco, CA, 21 issues per year — biweekly, except monthly June, July, August and December. Second-class postage paid at San Francisco, CA. Postmaster send address changes to UCSF *Newsbreak*, News & Public Information Services, University of California, San Francisco, 513 Parnassus, Room S 20, San Francisco 94143-0462.

Deadline for the next issue, which will cover November 21-December 18 (four weeks), will be on **Tuesday, November 10, at 11 a.m.** Please send campus news copy to Allen Balderson, Medical Center news to Dawn Finch, and calendar and gazette items to Michele Firpo, all at Box 0462. Last-minute copy can be taken over the telephone by calling 476-1541. The University of California is an affirmative action/equal opportunity employer.

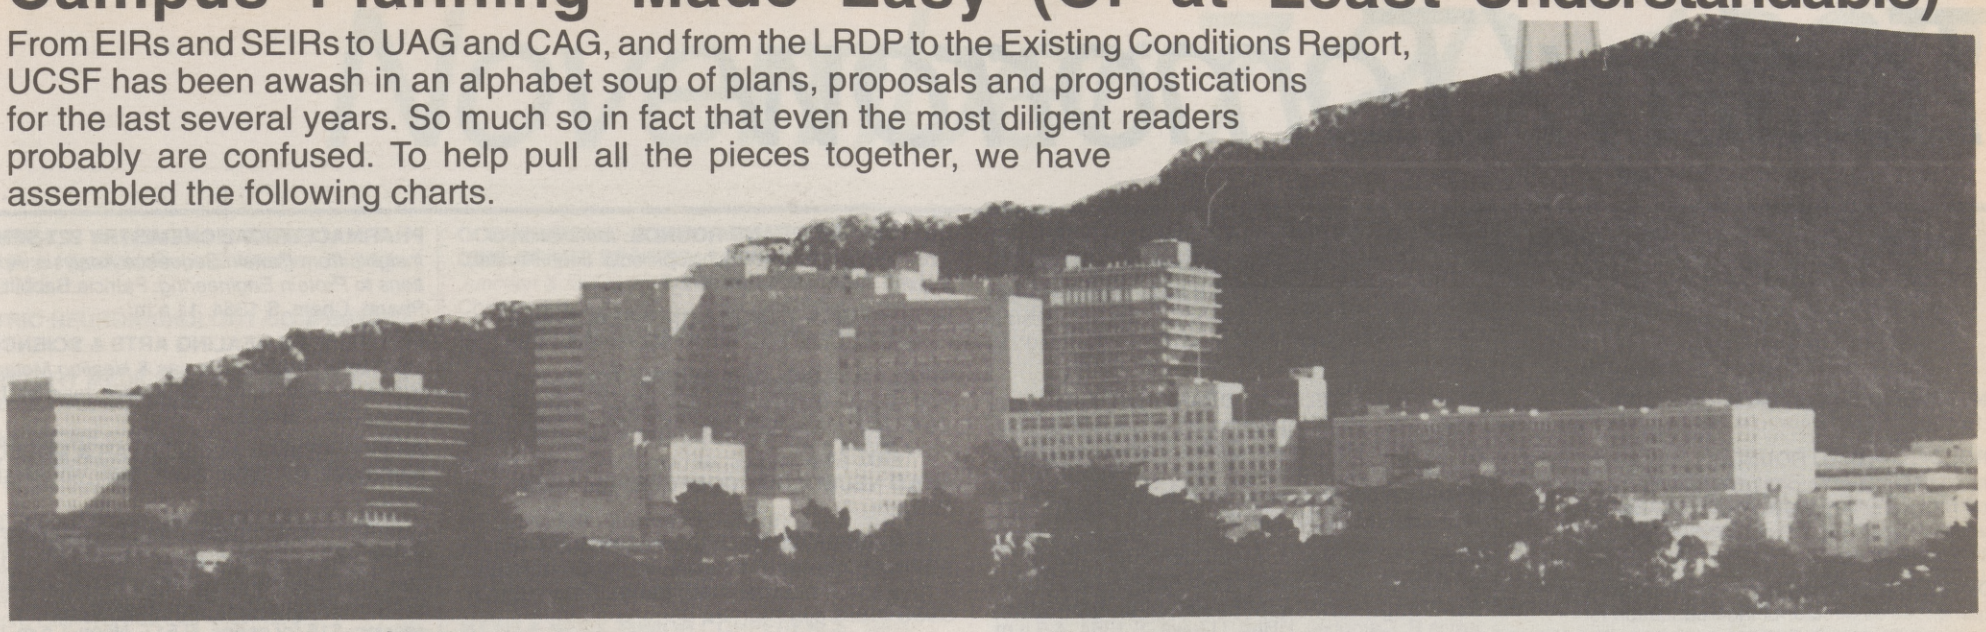
Campus Planning Made Easy (Or at Least Understandable)

From EIRs and SEIRs to UAG and CAG, and from the LRDP to the Existing Conditions Report, UCSF has been awash in an alphabet soup of plans, proposals and prognostications for the last several years. So much so in fact that even the most diligent readers probably are confused. To help pull all the pieces together, we have assembled the following charts.



LRDP Milestones

- **Existing Conditions Report.** A survey of all UCSF buildings and land, which concludes that the Parnassus site is 139,202 square feet over a UC Regents' limitation imposed in 1976. It also states that the expansion potential of the existing sites will provide only a fraction of UCSF's critical space needs. *Completed Sept. '92.*
- **Space Needs Assessment.** Will describe UCSF's major academic and clinical programs — existing space and population, and projected space needs. This then will be evaluated against existing facilities at each site and the remaining development potential without demolition and replacement. *Completion date: Nov. '92.*
- **Evaluation Criteria.** Will describe the criteria UCSF is proposing to use to evaluate both individual sites and alternative concepts for growth, including physical features, environmental consequences, social and economic factors, financial feasibility, funding options, costs of operating and timing issues. *Completion date: Nov. '92.*
- **Space Plan/Alternatives.** Based on the outcome of the above, this will propose different development solutions for space needs. *Completion date: Mar. '93.*
- **EIR Initial Study/Preparation Notice.** Will describe basic elements of LRDP as then understood; the campus' planning goals and objectives; general physical environmental setting of each site; topics to be addressed in the EIR and potential mitigation measures. Public scoping meeting will be held. *Completion date: Apr. '93.*
- **Draft LRDP.** Prepared once public and campus community workshops and meetings have been held. Will describe a preferred alternative plan for developing existing and new campus sites *Completion date: Oct. '93.*
- **Draft EIR.** Occurring simultaneously with publication of Draft LRDP. Will describe potential environmental effects of all the alternatives described in the Draft LRDP. *Completion date: Oct. '93.* Draft EIR public hearing: Nov. '93.
- **Regents' LRDP.** To be written at conclusion of review period, it will incorporate changes to UC's Draft LRDP and public comment. Once approved, it becomes the new LRDP. *Completion date: Fall '94.*
- **Final EIR.** Revision of the Draft EIR incorporating changes made in response to UC and public comments. Final EIR must be certified by Regents. *Completion date: Fall '94.*

LRDP

What is the plan?

The Long Range Development Plan will provide a blueprint for programs and space needs for the next 15 years. This blueprint will include a decision whether to continue growing at scattered sites or to develop a major new site.

Square feet of space

5.58 million square feet of space currently is owned or leased by UCSF in San Francisco and 173,355 square feet outside of San Francisco.

Number of employees

14,063 employees work at UCSF sites in San Francisco.

History/Background

The last LRDP, adopted in 1982, reaffirmed a policy of decentralization from Parnassus Heights. Over the past several years, administrative and academic support units have been dispersed to new locations, freeing space at Parnassus Heights. Each UC campus must submit a new LRDP, and an accompanying Environmental Impact Report (EIR), to the Board of Regents. UCSF is committed to broad campus and community participation in the planning process to ensure that the final plan will be supported by the campus and the public. In 1991, a faculty committee — the Planning Committee for the 21st Century — was formed to oversee the LRDP preparation. At the beginning of January 1992, the campus began meeting with two new advisory groups — the University Advisory Group (UAG), made up of a variety of campus people; and the Community Advisory Group (CAG), leaders from various neighborhood, political and ethnic groups.

Current status

Two documents — Space Needs Assessment and Evaluation Criteria — will be published in the coming weeks. Alternatives are being developed and received by the UAG, CAG and the Planning Committee for the 21st Century.

What's next?

After additional study and discussion with the campus and the community, planners will develop an array of alternatives by next spring. A draft LRDP is scheduled to be completed in about a year.

When will the plan be complete?

The final LRDP and EIR are scheduled to go to the Regents in fall 1994.

Laurel Heights

What is the plan?

The Environmental Impact Report approved by the Board of Regents in 1990 called for moving academic and research programs of the School of Pharmacy and the School of Medicine to Laurel Heights

Square feet of space

The two buildings at the Laurel Heights site contain a total of 467,683 square feet of space.

Number of employees

Currently, 167 administrative and academic employees work at Laurel Heights.

History/Background

UCSF acquired Laurel Heights in 1985 to ease overcrowding at Parnassus Heights, but plans to develop the facility have been blocked for the past six years by legal challenges from a neighborhood association and the rising costs of building labs.

Current status

Two of the three suits filed by the Laurel Heights Improvement Association have been dismissed in Superior Court and the rulings upheld by the Court of Appeal. The California Supreme Court is considering a Court of Appeal order requiring UCSF to recirculate the EIR for additional public comment.

What's next?

Due to the continuing legal challenges, the space issues being identified in the LRDP, the changing needs of the campus, and the rising costs of building labs, UCSF is reviewing the plan for Laurel Heights.

When will the plan be complete?

This is open-ended. It depends in part on the CA Supreme Court suit.

What's the latest on the JCF?

One of the plans being proposed is by the Jewish Community Federation, which now is looking into buying the building in order to relocate most of the city's Jewish agencies under one roof. The JCF might then rent space to UCSF. However, according to Vice Chancellor Bruce Spaulding, the chances of an agreement are "slim."

UCSF/Mount Zion

What is the plan?

Mount Zion integrated with UCSF in 1990 to expand patient care, research and teaching facilities. Soon after, the campus announced plans to develop what may become the only National Cancer Institute-designated Comprehensive Cancer Center in Northern California, the core of which would be located at Mount Zion.

History/Background

The 1990 EIR outlined a short-range (by 1996) and long-range (1997-2010) development plan to provide space for new patient care programs, outpatient services, research, office space for faculty physicians and parking.

What are the main changes?

Planning following the integration pointed out the need to make changes in construction from the original development plan. The proposed changes include current plans to keep the Pavilion building, located at 2356 Sutter Street, as an interim outpatient Cancer Center while a new five-story facility is being built. Because the Pavilion building would be retained for "swing" space during the long-range reconstruction of the hospital, UCSF is seeking land to construct a research center, medical office space and parking. These changes would not alter the projected staffing and patient activity levels at Mount Zion.

Current status

UCSF has just prepared a Subsequent Environmental Impact Report (SEIR) to analyze the impact of these revisions. A number of community meetings and a formal "on the record" public hearing for the SEIR were held in an effort to keep the community informed and to learn public concerns.

Square feet of space

As a result of the program revision in the 1992 SEIR, the projected total square footage in 1996 would be 819,258 or 172,543 more square footage than envisioned for 1996 in the 1990 EIR.

Number of employees

UCSF/Mount Zion's total staff count currently is 1,548. This figure includes hospital staff, students, residents, fellows, medical staff and part-time staff. That figure may go up to 2,567 by 1996 as projected in the original EIR.

What's next?

UCSF plans to submit the 1992 Final SEIR to the UC Regents for certification at its November meeting. UCSF also plans to submit preliminary designs for the outpatient cancer center and the research building for approval at the same meeting. If everything goes as scheduled, construction on the outpatient cancer treatment building and the research facility should be completed by 1996. UCSF hopes to achieve NCI-designated "Comprehensive" status by 1997.

Other Projects

What is the plan?

Earlier this year, UCSF began efforts to answer the obvious and urgent need for additional laboratory space — a separate process from the LRDP. The need for new laboratory space has been caused by long delays in plans to develop the UCSF Laurel Heights facility. Options include leasing existing lab space outside of SF, converting Parnassus administrative space and converting space at Mission Center.

Square feet of space

Proposals are being considered to lease or develop from 50,000 to 150,000 square feet of new lab space.

Power Plant

The existing campus power plant is wearing out. Boilers, turbines, and electrical switches are obsolete, and the building has been declared seismically unsound. Plans now being drawn call for constructing a new central utilities plant on the site of the Laundry Storehouse building, which would be demolished. By using natural gas to produce both steam and electricity — a process called cogeneration — the new plant would provide most of the energy needs for the Parnassus Heights site while reducing UCSF's power bill enough to pay for itself. The improved system also would include emergency generators to keep the hospitals and campus functioning after a major disaster. The project currently is undergoing environmental review with an initial report due this month.

Library Release Space

The former library space in the Medical Sciences and HSE buildings and the second and third floor mezzanine of the Nursing Building will be renovated to provide new research laboratories (40,000 square feet), classrooms and lecture halls (13,000 square feet), a new cafe, and an expanded student commons. Funding for the project will come from the Proposition 153 bond sale approved by voters in June. Construction is expected to last 19 months with occupancy projected for December 1994 or January 1995.

Today/Tomorrow

7 Saturday

ANESTHESIA GRAND ROUNDS. HSW 301. 8-10 a.m.

UROLOGY GRAND ROUNDS: *Collagen in Urology.* Rajendra S. Bhatnagar, Biochem., Stom., Oral Bio. & Periodont. *Laser Sphincterotomy.* Inder Perkash, Uro. 8:30-11 a.m. Preceded by case presentations.

LOW VISION FORUM: Sarah Brown shares her experiences as director of the Foundation for Glaucoma Research. Forums are held on the first Saturday of each month. Main foyer, ACC. 11 a.m.-1 p.m. Call Frances Neer at 626-5313 for information.*

8 Sunday

GORENMAN PERFORMS AT FALL CONCERT

The UCSF Orchestra performs works by Mozart, Barber & Rachmaninoff with guest pianist Yulia Gorenman. $4/$7. Knuth Aud., Creative Arts Bldg., SF State, 1600 Holloway Ave. 7:30 p.m. Call Arts & Performances at 476-2542.*

9 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms — X-rays to screen for breast cancer — from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physician to have the mammogram, in addition to their physician's full name, address (including room number & zip) & phone number to assure that results are mailed promptly. The procedure takes approximately 20 minutes & costs $60. To make an appointment call 476-2193 between 9 a.m. & 3 p.m.

Because the service has become so popular and appointments are filled by the time this calendar is published, we list only dates when the van will be at UCSF locations and when appointments are still available:

- Jan. 7, 1993: UCSF Daly City. 333 Gellert Blvd.
- Jan. 8: On Parnassus at Medical Cntr. Way.
- Feb. 4: UCSF Daly City. 333 Gellert Blvd.
- Feb. 5: On Parnassus at Medical Cntr. Way.

A mammogram also is available at the Mount Zion radiology department for $50. Call 885-7710. (Board of Supervisors has honored the UCSF Mammography Van. See story on page 7.)

COMING TO CALIFORNIA

An exhibit of unique books tracing the history of the health sciences in California is on display through February 1993. 4th fl. exhibit cases, Library & Cntr. for Knowledge Mngt.

OTOLARYNGOLOGY GRAND ROUNDS: *Perioperative Cardiac Risk Assessment in the ENT Patient.* Eugene Shafton, Med. *History of CPA Tumors.* Robert Jackler, Oto. S 214. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. 2A47, VAMC. 9:30-10:30 a.m.

BRAIN TUMOR RESEARCH CENTER SEMINAR: *Is There a Role for Hyperthernia in the Treatment of HIV Infection?* Milton Yatvin, Rad. Onc., Biochem. & Mol. Bio., Oregon Health Sciences U., Portland. S 214. Noon-1 p.m.

OPEN ENROLLMENT

Open enrollment takes place for only two weeks — Mon., Nov. 9 to Fri., Nov. 20. The remaining informational meetings take place from noon to 1 p.m. (except Oyster Point) on the following dates & at the following locations.

- Mon., Nov. 9: Carr Aud., SFGH.
- Thurs., Nov. 12: Toland Hall.
- Fri., Nov. 13: A 18, MZ.
- Wed., Nov. 11: Conf. Rm., Oyster Point. 8:30-9:30 a.m.

UC's legal expense insurance carrier is switching from Midwest Legal Services to Prudential. Special meetings with representatives from Prudential are scheduled as follows:

- Tues., Nov. 10: Cole Hall & Rm. 125, MCB. Noon-1 p.m.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

PROGRAM ON THE IMPLANTING MAMMALIAN EMBRYO: *Circles & Cords: Sry & Organogenesis* in vitro. Blanche Capel, Natl. Inst. Med. Res, London. LR 213. Noon.

SCHOOL OF MEDICINE DEAN'S SEMINAR: *Genetic & Environmental Control of Morphogenesis in Humans & Yeast.* Mahin Golabi, Ped. & Med. Gen.; Ira Herskowitz, Biochem. & Biophys. HSW 300. 3:30-5 p.m. Simultaneous transmission to Rm. 3208, Bldg. 30, SFGH.

CVRI/PROGRAM OF EXCELLENCE IN MOLECULAR BIOLOGY: *Dystroglycan: A Novel Laminin Binding Glycoprotein in Skeletal & Cardiac Muscle.* Kevin P. Campbell, HHMI, U Iowa. S 1364. 4-5 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Factor VIII Inhibitors.* Leon Hoyer, Holland Lab., American Red Cross Blood Serv. HSW 301. 4-4:50 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

10 Tuesday

COMBINED PLASTIC SURGERY/ORTHOPAEDIC HAND SURGERY GRAND ROUNDS: *Bracial Plexus Anatomy.* Kevin Ciresi, Plast. Surg. Toland Hall. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Early Surgical Management of Cleft Lip & Palate Patient.* Bill Hoffman, Plast. Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Over-the-Counter Medicine.* Bob Levin, Pharm. Serv., SFGH. Carr Aud., SFGH. 8:30-9:30 a.m.

NEW EMPLOYEE ORIENTATION: S 214. 8:30 a.m.-10:30 p.m. Call 476-1073.

OB/GYN GRAND ROUNDS: *Bacterial Vaginosis: Immunology, Microbiology, Diagnosis & Treatment.* Daniel V. Landers, Ob/Gyn, SFGH. S 1364. 9-10 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

MEDICAL CENTER VOLUNTEER ORIENTATION: To acquaint new & potential volunteers with opportunities available in the Medical Center at UCSF. LPPI Aud. 9-11 a.m. Call 476-1196.*

SFGH MEDICINE GRAND ROUNDS: *Staphylococcus Aureus: The Ultimate Pathogen.* Gorden Archer, Infec. Dis., Med. Coll, Richmond, VA. Carr Aud., SFGH. 11:30 a.m.

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Chromosome Translocations: Dangerous Liaisons.* Janet Rowley, Med. & Mol. Genet. & Cell. Bio., U Chicago. HSW 301. 4 p.m. Student lunch with speakers in S 980 at noon. Sign up in S 962.

EPIDEMIOLOGY & BIOSTATISTICS SEMINAR: *Vitamin C & Heart Disease.* Joel Simon, Prev. Sci. Group. MU West 427. 4-5 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

MOUNT ZION VOLUNTEER ORIENTATION: To acquaint new & potential volunteers with opportunities available at UCSF/Mount Zion. Herbst Hall, MZ. 5-7:30 p.m. Call 885-7353.*

NEUROLOGY GRAND ROUNDS: *Mechanism of Motor Recovery in Hemiplegic Stroke.* Roger Simon, Neuro. S 664. 5-6 p.m.

11 Wednesday

SURGERY MORBIDITY & MORTALITY GRAND ROUNDS. Toland Hall. 7-8 p.m.

SFGH ORTHOPAEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

DERMATOLOGY STAFF CONFERENCE: *Progress in HIV Vaccines.* David Chernoff, Chiron. HSW 301. 8-9 a.m.

NUCLEAR MEDICINE SEMINAR: *Interventional Echocardiography.* Elyse Foster, Med. LPPI Aud. 8:30 a.m.

BROWN BAG LECTURE SERIES: *Assisted Reproductive Technology.* Mary C. Martin, Ob/Gyn & In Vitro Fertilization Prog. Sponsored by Campus Tours & Speakers Bureau. HSW 300. Noon. Call 476-4394.*

HISTORY OF HEALTH SCIENCES COURSE: *Poetry in Medicine II.* David Watts, Med. U 456. Noon-2 p.m.

PSYCHIATRY GRAND ROUNDS: *Modulation of Positive Symptoms of Schizophrenia.* John Krystal, Psychr., Yale. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. 1:30 p.m.

SEMINAR IN BIOLOGY SERIES: *Activation of Early Cell Cycle Events in Extracts of Quiescent Cells.* Joan Ruderman, Anat. & Cell Bio., Harvard. HSW 300. 4 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

JOINT UCB/UCSF MEDICAL ANTHROPLOGY SEMINAR: *Smoking & Health Among Older People in Four Ethnic Groups.* Judith Barker, Med. Anth. CSBS 218. 5 p.m.

PEDIATRIC UROLOGY SEMINAR: *Pediatric Uroradiology Quiz.* Barry Kogan, Uro., Ped. & Ped. Uro. M 464. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: *Review of Cell Cycle Markers.* Russel Kerschmann, Path. HSW 508. 5:30-6:30 p.m.

SAN FRANCISCO HISTORY CLASS: Lectures on SF's colorful history by Charles Fraccia, SF Hist. Society. Toland Hall. 7:30-9:30 p.m. Call 775-1111.*

12 Thursday

ORTHOPAEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS: *Evolutions in the Conception of Asthma.* Homer Boushey, Med. & CVRI. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *How to Diagnose the Rash You Are Seeing . . . Over the Phone!* Sandy Goldstein, Derm. S 664. 8-9 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Low Back Pain & Joint Examination.* Alison McKenzie, Grad. Prog. in PT. A 455. 10 a.m-noon.

NEUROLOGY/NEURORADIOLOGY CONFERENCE. HSE 317. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

INSTITUTE OF HEALING ARTS & SCIENCES SPECIAL LECTURE: *The Physical, Emotional & Mental Benefits of Yoga for Healthcare Practitioners.* Swami Shanmugananda, Sivananda Ashram, Nassau, Bahamas, & Quebec, Canada. HSW 300. Noon-1 p.m. Call 681-2731.*

ORAL BIOLOGY 220 FACULTY RESEARCH SEMINAR: *Hairy Leukoplakia.* John Greenspan, Stom. & AIDS Clin. Res. Cntr. S 664. Noon.

LABORATORY MEDICINE RESIDENTS' MICROBIOLOGY CORE COURSE. L 511. 1-3 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEUROSCIENCE SEMINAR: *The Determination of Neuronal Identity in the Developing Cerebral Cortex.* Susan K. McConnell, Bio. Sci., Stanford. HSW 300. 4 p.m.

PRIMARY CARE GRAND ROUNDS: *What Goes on Behind Closed Doors? How Providers Spend Their Time with Patients — A Time-in-Motion Study.* Elizabeth Grimm. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *Pinocchio.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees (today only) $3; general $3.50. Cole Hall. 5:45 & 7:45 p.m. (Movies subject to change.) Call 476-2542.*

UROLOGY JOURNAL CLUB MEETING: No. 2 Belmont Ave., SF. 6:30 p.m. Call 759-7407.

13 Friday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Dissociative Disorders in Childhood.* Patricia L. Speier, Child & Adol. Psychr. LPPI Aud. 10-11 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Insights from Protein Sequence Analysis: Applications to Protein Engineering.* Patricia Babbitt, Pharm. Chem. S 1364. 11 a.m.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Pastlife Dramas & Healing Metaphors.* Glenn Williston, author, counselor, teacher. N 721. Noon. Call 759-9929.*

SFGH PROGRAM IN CELLULAR & MOLECULAR MEDICINE. Rm 3208, 2nd fl., Bldg. 30, SFGH. Noon.

WOMEN'S RESOURCE CENTER PRESENTATION: *Mutual Fund Investing Made Simple.* Leona Lau, Financial Planning, presents this second in a four-part series called "Your Money Matters." $5 per session, $16 for series. N 517. Noon-1 p.m. Call (510) 724-6916.*

LABORATORY MEDICINE RESIDENTS' MICROBIOLOGY CORE COURSE. L 511. 2:30-4:30 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *Pinocchio.* Children under 14 $2; UCSF students & MU members $2.50; students & seniors $3; general $3.50. Cole Hall. 6:30 & 8:30 p.m. (Movies subject to change.) Call 476-2542.*

14 Saturday

COMBINED ANESTHESIA/SURGERY GRAND ROUNDS: *Impact of New Technology on Anesthetic & Surgical Practice.* Three presentations & a panel discusson. Cole Hall. 8-10 a.m.

SCHOOL OF MEDICINE FAMILY DAY

Families of medical students have the opportunity to see what the campus is all about, including lab visits, faculty presentations & simulated patient contact. Sponsored by Dean's Office/School of Medicine, Alum.-Fac. Assn. & Development Office. Meet in Med. Sci. lobby. 9:30 a.m. Call 476-1216 for reservations.

16 Monday

OTOLARYNGOLOGY GRAND ROUNDS: *Molecular Genetics in Otolaryngology.* J. Christropher Post, Ped. Oto., Children's Hosp., Pittsburgh. S 214. 8-10 a.m. Preceded by resident applicant orientation. Followed by case presentations.

VAMC NEURORADIOLOGY ROUNDS. 2A47, VAMC. 9:30-10:30 a.m.

VAMC NEUROPATHOLOGY CONFERENCE. 2A47, VAMC. 10-11 a.m.

LABORATORY MEDICINE RESIDENTS' MICROBIOLOGY CORE COURSE. L 535A. 10 a.m.-noon.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

LABORATORY MEDICINE GRAND ROUNDS: *The Role of Homeobox Genes in Human Hematopoiesis.* H. Jeffrey Lawrence, Med., VAMC. L 535. 4-5 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

URORADIOLOGY CONFERENCE. M 464. 5-6 p.m

17 Tuesday

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

SFGH PEDIATRIC GRAND ROUNDS: *Everyday Dental Situations in Pediatrics.* Raymond Braham, Ped. Dent. Carr Aud., SFGH. 8:30-9:30 a.m.

REGENTS LECTURER

Harvard surgeon John B. Mulliken is a Regents Lecturer from Nov. 17-19 and will deliver the following Grand Round lectures. Sponsored by Depts. Derm., Oral & Max. Surg., Neurorad., Ped. & Surg.

- Tues., Nov. 17: *Towards a Synchronous Repair of Bilateral Cleft Lip & Nasal Deformity.* Combined Oral & Max. Surg./Plast. Surg. Grand Rounds. C 701. 7:30 a.m.
- Wed., Nov. 18: *Application of the Biologic Classification of Vascular Anomalies.* Derm. Staff Conference. HSW 301. 8 a.m.
- Thurs., Nov. 19: *Vascular Birthmarks.* Ped. Grand Rounds. S 664. 8:30 a.m.

November 7-20, 1992

TRANSFUSION RESEARCH FORUM: *The A-B-C-D-Es of Viral Hepatitis.* Richard Weisiger, GI Unit. L 535. 8:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

LABORATORY MEDICINE RESIDENTS' MICROBIOLOGY CORE COURSE. L 535. 10-11 a.m.

SFGH MEDICINE GRAND ROUNDS: *Update on Asthma.* Homer Boushey, Med. & CVRI. Carr Aud., SFGH. 11:30 a.m.

MOUNT ZION BROWN BAG LECTURE SERIES: *Back Problems Shouldn't Be a Pain.* Robert & Irene Minkowsky, Physician's Back Inst. Sponsored by Campus Tours & Speakers Bureau. Herbst Hall, MZ. Noon. Call 476-4394 for information.*

WOMEN'S RESOURCE CENTER PRESENTATION: *Full-Figured Women: Have You Come a Long Way, Baby?* Jan Faulkner, Psychr., discusses the sizism, sexism & racism full-figured women face in the workplace, in addition to demonstrating some empowering techniques for self-acceptance & comfort. Toland Hall. Noon-1 p.m. Call 476-0400.*

MOUNT ZION POST-ANESTHESIA CARE UNIT/AMBULATORY SURGERY CENTER SERIES: *General Anesthesia.* Jerill Plunkett, Anes., MZ. Neuro. Conf. Rm., 4 North. 2-3 p.m. Call Janis Callon at 885-7362 or Tamara Ryan at 885-7363.

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

AIRD LECTURER

U Michigan neurologist Sid Gilman is the Twentieth Robert B. Aird Visiting Professor of Neurology.

- Tues., Nov. 17: *Multiple System Atrophy.* Toland Hall. 5-6 p.m.
- Wed., Nov. 18: *Friedrich's Ataxia.* S 664. 4:30 p.m.

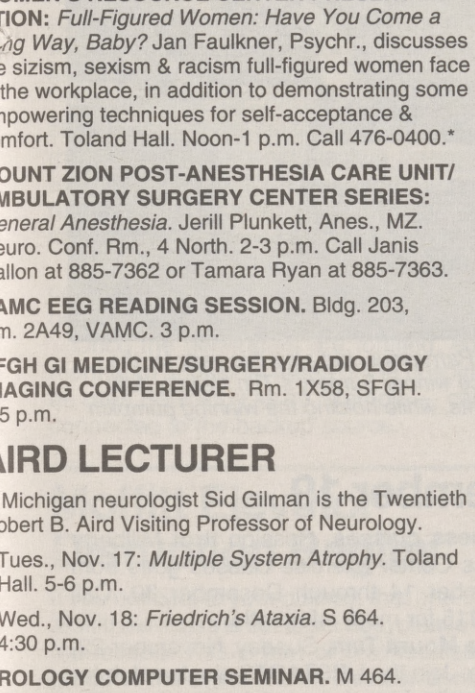
UROLOGY COMPUTER SEMINAR. M 464. 5-6 p.m.

18 Wednesday

SURGERY GRAND ROUNDS: *The Use of the GI Tract for Urinary Tract Reconstruction.* Peter N. Bretan, Surg. & Uro. Toland Hall. 7-8:30 a.m.

SFGH ORTHOPAEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.



OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Ergonomic Design: A Case Study.* Isshgar Gilad, Ergonomics Lab. A 455. 8-9 a.m.

DERMATOLOGY STAFF CONFERENCE: (See Regents Lecturer schedule.) HSW 301. 8-9 a.m.

GRAND ROUNDS IN MEDICAL EDUCATION: *Multiple Choice Examinations.* Molly Cooke, Clin. Med. HSE 317. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *The Genetics of Human Hypertension: Diagnostic & Therapeutic Implications from the Endocrine Perspective.* Gordon H. Williams, Med., Harvard; Endo. Hyperten. Div., Brigham & Women's Hosp., Boston. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR: *TechneGas: A New Approach to Ventilation Imaging.* William Ashburn, UCSD. LPPI Aud. 8:30 a.m.

BROWN BAG LECTURE SERIES: *The Return of Tuberculosis.* Charles E. Chambers, Infec. Dis., SFGH. Sponsored by Campus Tours & Speakers Bureau. HSW 300. Noon. Call 476-4394.*

HISTORY OF HEALTH SCIENCES COURSE: *Poetry in Medicine II.* David Watts, Med. U 456. Noon-2 p.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *The Cervicothoracic Junction & Its Upper Extremity Relationship.* Paul Christensen, exercise & rehab. specialist. Cafe Conf. Rm., 2nd fl., Santa Clara Valley Med. Cntr. Noon.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Evaluation & Treatment of Occupational Stress Disorders.* Psychiatrist Ronald Bortman. Conf. Rm. 3, Alta Bates Med. Cntr. Noon.

PSYCHIATRY GRAND ROUNDS: *The Effect of Chronic Cocaine Abuse on Cerebral Phospholipid Metabolism & Blood Flow.* Shane McKay, Bio. Psychr., VAMC. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. 1:30 p.m.

DEPARTMENT OF NURSING CULTURAL DIVERSITY ENHANCEMENT COMMITTEE MEETING: Open to all medical center & campus members. M 169. 3 p.m. Call Diane Ayers at 476-5621.

SEMINAR IN BIOLOGY SERIES: *The Functions of Calmodulin During Cell Proliferation.* Trisha Davis, Biochem., U Washington. HSW 300. 4 p.m.

UROPHYSIOLOGY CONFERENCE: *Neurological Approaches to the Management of Pelvic Pain.* Richard A. Schmidt, Uro. M 464. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: Resident Case Presentations. HSW 508. 5:30-6:30 p.m.

GREAT EXPECTATIONS PROGRAM FOR PARENTS PRESENTATION: *Labor Support & Medication During Childbirth.* Video presentation of *Birth Through Father's Eyes.* A 326. 7-8:30 p.m. Call 476-MOMS.*

SAN FRANCISCO HISTORY CLASS: Lectures on SF's colorful history by Charles Fraccia, SF Hist. Society. Toland Hall. 7:30-9:30 p.m. Call 775-1111.*

19 Thursday

ORTHOPAEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS: *CPC: Complex Presentations of Lupus Erythematosus.* Ted Harris, Med., Stanford. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: (See Regents Lecturer schedule.) S 664. 8:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Advances in Congenital Cataract Surgery.* William Good, Oph. S 214. 8:30-10 a.m. Preceded by case presentations: *Neuro-ophthalmology.*

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

ABOG NOVEMBER MEETING: *TEAM: Transform & Energize Management.* Panel of speakers describe & discuss what TEAM is all about. HSW 302. 10 a.m.-noon.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *COPD/Bronchitis.* James Beck, Med. & VAMC Chest Serv. *Legal Medicine.* Dan Tennenhouse, FCM, Stud. Hlth. Serv. & Physio. Nurs. A 455. 10 a.m-noon.

CLINICAL PATHOLOGY CONFERENCE. S 1364. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

HOLIDAY BAKE-OFF

Come vote for your favorite pies, cakes, cookies & brownies. Contestant entry deadline is Fri., Nov. 13. Millberry Conf. Ctnr. 11:30 a.m.-1:30 p.m. Call EMPACT! at 476-2675. (See story on page 6.)

GERIATRIC NOON CONFERENCE: *Osteoarthritic Manifestations in the Geriatric Patient.* Nancy Lane, Med. & Rheum. Herbst Hall, MZ. Noon-1 p.m.

MISSION CENTER BROWN BAG SERIES: *Dependent Care for the '90s.* Byron Sigal, Child & Elder Care Referral Serv. Rm. 125, MCB. Sponsored by Campus Tours & Speakers Bureau. Noon-1 p.m. Call 476-4394.*

ORAL BIOLOGY 220 FACULTY RESEARCH SEMINAR: *Pain & Inflammation: The French Connection.* Jon Levine, Med., Anat., Oral & Max. Surg. S 664. Noon.

RAPE PREVENTION EDUCATION PROGRAM PRESENTATION: *When Crime Pays . . . The Victim: Civil Remedies for Uncivil Crimes.* Attorney Natasha Roit explains how victims may recover financial compensation from owners of properties where crimes take place. Toland Hall. Noon-1 p.m. Call 476-0400.*

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

NEUROSCIENCE SEMINAR: *Molecular Genetics of Neuronal Connectivity in* Drosophila. John B. Thomas, Salk Inst. HSW 300. 4 p.m.

ONGOING SUPPORT GROUPS

This is a listing of the various support & self-help groups, listed according to the day of the week on which they meet.

MONDAY

FRIENDS OF LOIS AL-ANON MEETING: Closed meeting: for friends & families of alcoholics only. Rm. 300C, MCB. Noon.*

UCSF AIDS HEALTH PROJECT MEDITATION & SELF-HYPNOSIS WORKSHOP: Weekly discussion group for anyone dealing with HIV or AIDS in themselves or others. Gazebo Rm., Davies Med. Cntr. 7-9 p.m. Call 476-6445.*

ALZHEIMER'S SUPPORT GROUP: For caregivers, family & friends of people with Alzheimer's or other dementing illnesses. First Monday of each month. Ground Fl. Conf. Rm., Alzheimer's Clin., 1350 7th Ave. 7-9 p.m. Call (800) 942-1333.*

INSTITUTE OF HEALING ARTS & SCIENCES TRANSCENDENTAL MEDITATION CLASS: First Monday of each month. N 517. 7 p.m. Call (510) 548-1144.*

TUESDAY

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. A 222, LPPI. 10 a.m.-noon. Help-line at 759-7923 provided daily, 7 a.m.-10 p.m.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

LUPUS SUPPORT GROUP: Second Tues. of the month. C 27, MZ. 7-9 p.m. Call 885-1720.*

WEDNESDAY

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. Rm. 300C, MCB. 12:05 p.m.*

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

SUPPORT GROUP FOR FAMILY/FRIENDS OF THOSE WITH MENTAL ILLNESS: Open to anyone interested in learning more about psychiatric disorders & their treaments. Call Laura Deering-Mayclin at 476-7394 for more information.

THURSDAY

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A222. 6 p.m.*

FRIDAY

OVEREATERS ANONYMOUS MEETING. Rm. 300C, MCB. 12:05 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. C 417. 12:10-1 p.m.*

LAKESIDE SENIOR MEDICAL CENTER CAREGIVER SUPPORT GROUP: Meets on alternate Fridays. $10 per meeting. 2501 Ocean Ave. at Junipero Serra. 2-4 p.m. Call 586-8600.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

PRIMARY CARE GRAND ROUNDS: *HPV — Controversies & Concepts.* Ya'aqov Abrams, FCM & Fam Med. Prac. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Musculoskeletal Clinical Case Conference.* Clyde A. Helms, Rad. & Rest. Dent. HSW 303. 5:15-6:15 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *Prelude to a Kiss.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees (today only) $3; general $3.50. Cole Hall. 5:45 & 8 p.m. (Movies subject to change.) Call 476-2542.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Changing Trends in Post-Mastectomy Reconstruction.* Stephen Mathes, Plast. Surg. Fac. Alum. House. Dinner 6 p.m. Lecture 7 p.m. For reservations call 476-3061.*

SEX, DRUGS AND ROCK 'N' ROLL

Psychotherapist Katherine Fraser & psychiatrist Maureen Katz present the first in a two-part series on adolescents focusing on risk-taking behavior. Community Health Talks sponsored by Public Serv. Outreach Prog. HSW 300. 7-8:30 p.m. Free parking available. Call 476-3208.*

WOMEN'S RESOURCE CENTER PRESENTATION: *Women's Voices: Debra Chasnoff on Filmmaking.* Chasnoff, producer of a 1992 Academy Award-winning documentary, *Deadly Deception — General Electric, Nuclear Weapons & Our Environment*, discusses the relationship between print & visual media & her involvement in both. Co-sponsored by Old Wives Tales bookstore. $7-$12. Toland Hall. 7:30-10 p.m. Call 476-0400.*

20 Friday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY SPECIAL CONFERENCE: *Current Trends in Children's Mental Health.* Albert Solnit, Ped. & Psychr., Yale. Mary Jane England, Wash. Business Group on Hlth. Co-sponsored by Family Mosaic Project. LPPI Aud. 2-4 p.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Pharmacology of Opioid Delta Kappa Receptor Subtypes — Novel Therapeutic Targets.* Frank Porreca, Pharmacol. S 1364. 11 a.m.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Breathing for Health.* Eric Peper, Inst. Holistic Healing Stud., SF State. N 721. Noon. Call 759-9929.*

*Open to the public.

SFGH PROGRAM IN CELLULAR & MOLECULAR MEDICINE: *A Sperm Analog of Viral Membrane Fusion Proteins.* Judith M. White, Pharmacol. Rm 3208, 2nd fl., Bldg. 30, SFGH. Noon.

LABORATORY MEDICINE RESIDENTS' MICROBIOLOGY CORE COURSE. 2M22, SFGH. 2:30-4:30 p.m.

ARTS & PERFORMANCES' COLE HALL CINEMA: *Prelude to a Kiss.* Children under 14 $2; UCSF students & MU members $2.50; students & seniors $3; general $3.50. Cole Hall. 6:30 & 8:45 p.m. (Movies subject to change.) Call 476-2542.*

DEVELOPMENT & TRAINING

For further information call 476-4032.

Post-Award Management of Extramural Funds. Wed., Nov. 18. 9 a.m.-4:30 p.m. $35.

Sexual Harrassment: Issues & Answers. Wed., Nov. 18. 8:30 a.m.-noon. $15.

Leadership Challenges. Thurs., Nov. 19. 8:30 a.m.-4 p.m. $60.

Managing Change. Fri., Nov. 20. 8:30 a.m.-4 p.m. $60.

Demystifying Gift/Private Grant Acceptance. Tues., Nov. 24. 9 a.m.-noon. $20.

Self-Assessment for Career Planning. Wed. & Fri., Dec. 2, 9, 16, 18. 8:30 a.m.-noon. $125.

Travel Expense Processing. Wed., Dec. 2. 1:30-4:30 p.m. $40.

Customer Service Strategies. Thurs., Dec. 3. 8:30 a.m.-4:30 p.m. $75.

Pre-Supervisory Training. Tues. & Thurs., Dec. 8, 10, 15, 17. 9 a.m.-Noon. $90.

General Ledger & Accounting. Thurs., Dec.10. 9:30 a.m.-4:30 p.m. $50.

CALL 502-NEWS

UCSF's internal news hotline gives up-to-the-minute information for staff, faculty & students.

CRIME PREVENTION

Presented by UCSF Police Department Crime Prevention Program. Call 476-5683 for information & reservations.

Crime Prevention Presentations. By appointment to campus departments & employees in the workplace.

Tear Gas Classes. Department of Justice certified. Personnel Conference Rm., 1350-7th Ave. 6-9 p.m. $12. Pre-registration required.*

THE NEXT DEADLINE

Tues., Nov. 10, is the deadline for items to be listed in the next calendar, which covers **Nov. 21-Dec. 18, 1992 (four weeks).** They must be received in our office in writing by 11 a.m. on that Tuesday. Mail your copy to Michele Firpo at Box 0462, call 476-1541, send a fax to 665-8668, or bring it to S 20.

Open Enrollment Begins Monday

This year's Open Enrollment period extends for two weeks only — from Mon., Nov. 9, to Fri., Nov. 20 — during which time eligible employees can enroll in or make changes in their UC benefits plans.

You should have received by now in your home mail both the Open Enrollment booklet — with detailed information on the opportunities and changes for 1993 — and your Benefits Statement. If you are missing these, call (510) 987-0651.

Your department's personnel rep can provide forms and assistance.

Several Open Enrollment information meetings remain:

- Mon., Nov. 9, noon-1 p.m., SFGH Carr Aud.
- Wed., Nov. 11, 8:30-9:30 a.m., Oyster Point conference room
- Thurs., Nov. 12, noon-1 p.m., Toland Hall
- Fri., Nov. 13, noon-1 p.m., A18, Mount Zion

Prudential, which is replacing Midwest Legal Service, has separate presentations:

- Tues., Nov. 10, noon-1 p.m., Cole Hall
- Tues., Nov. 10, noon-1 p.m., Rm. 125, MCB.

Note: All Midwest enrollees automatically will be transferred to the new plan.

Develop Your Management Skills

Application forms will be available after Friday, November 13, for the spring session of the Management Skills Assessment Program.

This four-day, university-wide program is designed to improve job performance and develop management skills.

The criteria include that applicants must be career employees at the AA III level or equivalent and nominated by their supervisors.

The spring session is scheduled for Tuesday through Friday, March 9 through 12. The fee is $500, payable by the department or the individual. A limited number of partial scholarships are available for women, racial minorities and disabled participants.

The application deadline is Wednesday, January 6. Forms are being sent to department managers or can be obtained from Development & Training, 476-4032. For further information on the program, call Bob Colmenares at the same number.

Berkeley Shuttle Goes Up to $2.50

The one-way fare on the UCSF-UC Berkeley shuttle has been increased from $2 to $2.50. Tickets may be purchased in advance in quantities of four for $10 at the Moffitt Hospital Cashier, or by submitting a written request to Parking & Transportation Services, Box 0299. No single tickets are sold on this campus, but may be purchased through the UC Berkeley Trip Office at (510) 644-7665.

In addition, beginning the week of November 15, there will be a new timetable for the UC Berkeley shuttle, which will allow more time to make it back and forth between the two campuses. New timetables are available on the shuttle or in the Parking & Transportation office. Call 476-1511.

Fund Performances

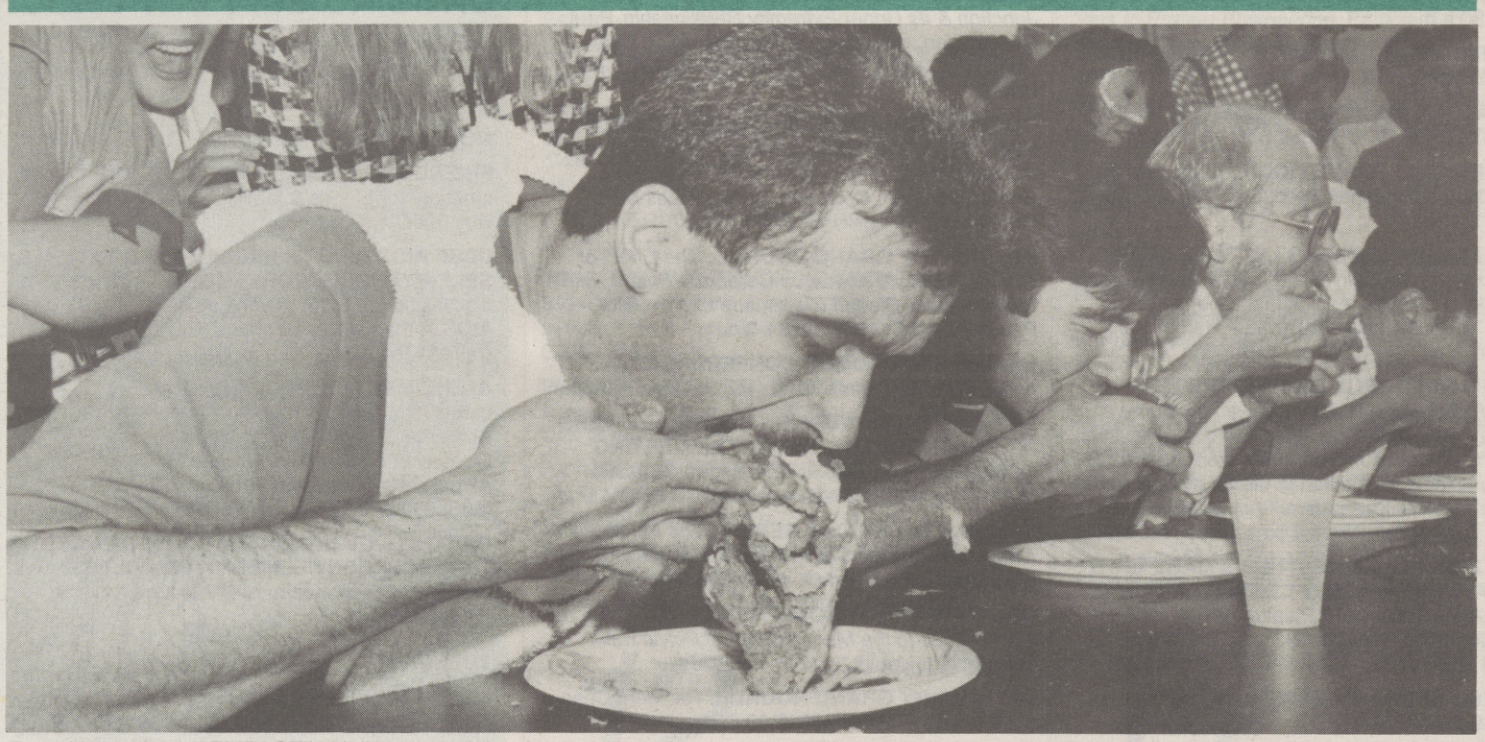
For those invested in the 403(b) Plan and the After-tax plan, here are the latest unit values and monthly factors (as of Sept. 30). The newly reported "annualized yield" reflects the annual yield that could be achieved if the current monthly rate were compounded for one year.

	Monthly Factors	Annual Rate	Annualized Yield
Savings	.0062	7.55%	7.70%
Money Mkt	.0029	3.54%	3.55%
ICCF	.0069	8.37%	8.58%

	Unit Value	1-Year Change	3-year Average Annual Yield
Bond	$54.13	15.4%	12.7%
Equity	$85.63	11.0%	10.5%
Multi-Asset	$12.89	10.2%	N/A

The investment results, as measured by total return figures given above, represent past performance and should not be considered indicative of future results. If you have questions, please call 476-9256.

Fun Zone



Pumpkin madness: EMPACT!'s Halloween celebration included not only their traditional extravaganza on Parnassus, but also this year for the first time ever a costume and pumpkin carving contest at Laurel Heights. (Above) On Parnassus, first-place winner Surgery's Tim Nelson (left) scarfs down pumpkin pie; (below) Louis Kaskowtiz takes first place in the costume contest at Laurel Heights, while holding the winning pumpkin by Fred Hendrickson. Both Louis and Fred are from the Office of Research Affairs.

UCSF Bakers Baking November 19

You can take part in EMPACT!'s Holiday Bake-Off on Thursday, November 19, in one of two ways: You can bake, or eat.

To be a baker, call 476-2675 for an entry form. There are three categories — pies, cakes and cookies.

To eat, show up at the Millberry Conference Center between 11:30 a.m. and 1:30 p.m. on the 19th, and for a small fee you can sample the goods. Then you can vote for the winners. There will be prizes for the winners in each category.

Also:

- **Entertainment '93 discount books.** Now available in the Auxiliary Office, M 182 or in L 103. Half price and two-for-one deals on meals, hotels, entertainment, etc. Several regional editions available. $40 books good for a year. Call 476-4906 for more information.
- **See's Candies deadline.** Holiday pre-orders due by Tuesday, November 10. Order forms available from EMPACT!, 476-2675.
- **Fitness classes.** Session II of Millberry Fitness Center exercise classes goes from November 14 through December 30. Call 476-1115 for more information.
- **Hike Mount Tam.** Sunday, November 22, 11 a.m. Join the UPSTARTS singles club for a five-mile hike followed by lunch at the Mountain Home Inn. Call Pat Jackson, 476-4698, to be included.
- **Thanksgiving in Death Valley.** Thursday, November 26, through Sunday, November 29. Lose weight this Thanksgiving. Two days in Fall Canyon, then scale 7,979' Palmer Peak. Sign up now at Outdoors Unlimited office, MU 245, or call 476-0417. (OU shop on Parnassus is closed for construction. Grand reopening Wednesday, November 18.)
- **Christmas Ski Holiday.** Wednesday evening, December 23, through Sunday, December 27. Cross-country, down-hill or non-skiers — four days of skiing, partying and/or relaxing at cozy South Tahoe cabin. Outdoors Unlimited, MU 245 or 476-0417.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Margaret A. Finn, nurse practitioner II, medical center: ACC administration.

Russell C. Fitzgerald, personnel analyst, capital resources management.

Alice Ford, pharmacy assistant II, medical center: pharmaceutical services.

Gary R. Forman, director - finance & planning, information technology services.

Robyn L. Friedman, clinical social worker II, anesthesia.

Lawrence S. Gamboa, clinical lab technician, medical center: clinical labs.

Wendy N. Gamboa, administrative assistant II, pharmaceutical chemistry.

Yvette M. Gibson, administrative assistant II, medical center: pharmaceutical services.

Herbert A. Giron-Yanez, hospital laboratory technician II, orthopaedic surgery.

Ernest H. Gomez, personal fitness trainer, programs & recreation.

Jane Guyette, administrative analyst, medical center: planning & marketing.

Alison M. Guymon, administrative assistant II, surgery.

Shari G. Hamilton, buyer III, materiel management.

Rena Harel, administrative assistant III, pediatrics.

Michele A. Harrah, project assistant II, family health care nursing.

Lois Herman-Friedlander, rehabilitation therapy director, LPPI: hospitals & clinics.

Joseph Hernandez, Jr., member relations representative, campus post office administration.

Lori E.M. Herrmann, accounting assistant II, social & behavioral science.

Christopher M. Hirano, administrative assistant III, medical center: administration.

Ann L. Hix, administrative assistant III, dental public health & hygiene.

Martha Hooven, director of administration, LPPI: instruction & research.

Blanca R. Huerta, record assistant I, dental clinics.

Pearl Jue, respiratory therapist III, medical center: respiratory care services.

Anne S. Kastor, staff research associate I, Institute for Health Policy Studies.

August Kleinzahler, senior typist clerk, general clinical research.

Marina Koshelev, assistant II, office of research affairs.

Tony T. Lau, administrative assistant III supervisor, medicine/SFGH.

Vick Hang Lau, laboratory helper, biochemistry & biophysics.

Virginia A. Lax, project assistant I, family and community medicine.

Michael Le Boff, hospital assistant II, medical center: Moffitt/Long ambulatory surgery.

Elizabeth Loza, administrative assistant I, medical center: hospital information systems department administration.

Terry J. Lynem, senior collections representative, campus post office administration.

Justin D. Ma, hospital assistant I, clinical labs/SFGH.

Nancy J. Malone, clinical nurse II, medical center: hospital information systems — department systems implementation.

Dia M. Mamish, staff research associate II, medicine/VAMC.

Carolyn D. Martin-Ramil, administrative assistant II, mental health community & administrative nursing.

Robert McGranahan, division manager, medicine.

Kathryn S. McHenry, principal administrative analyst, medical center: planning & marketing.

Raphaelle L. McMahon, senior word processing specialist, LPPI: instruction & research.

Juan M. Melandez, laboratory assistant I, microbiology & immunology.

Alfredo E. Mijano, financial assistant II, dental clinics.

Terry D. Milam, laboratory assistant III, ob/gyn & reproductive sciences.

Edgar J. Molina, accounting assistant III, psychiatry.

Patricia Ann Montes, secretary II, physiological nursing.

Gwendolyn Moore, staff research associate III, epidemiology & international health.

Mistake on Sexual Harassment Advisors

In the last issue of *Newsbreak*, a list of the UCSF sexual harassment advisory group was inadvertently listed instead of UCSF's sexual harassment advisors. We apologize for any inconvenience this may have caused.

The following is the correct list of campus sexual harassment advisors who are available to serve as a resource to any individual who has a sexual harassment complaint or inquiry. They can explain a variety of ways to proceed, including writing a letter to the harasser, documenting the cases, and mapping out a way to be more assertive. You may call any of the people below for help:

Michael Adams, Affirmative Action/Equal Opportunity, 476-4753
Elizabeth Baker, Employee Relations, 476-4675
Rachel Bernstein, Affirmative Action/Equal Opportunity, 476-4754
Molly Cooke, School of Medicine, 476-4362
Kathleen Giacomini, Chancellor's Advisory Committee on the Status of Women, 476-1936
Emanuelle Gomez, Faculty, Staff & Student Assistance Program, 476-8279
Katy Irwin, Mission Center, 476-0390
Eric Koenig, Student Relations, 476-4318
Bonnie Lasky, SFGH Dean's Office, 206-6052
Amy Levine, Women's Resource Center, 476-5837
Cynthia Lynch, Legal Coordination, 476-5005
David Odato, Mount Zion, 885-7758
Susan Semonoff, Medical Center Administration, 476-3013
Alma Sisco-Smith, Academic Student Services, 476-4373
Cathryn Thurow, SFGH Dean's Office, 476-2474
Diane Wara, Chancellor's Advisory Committee on the Status of Women, 476-2865
Keith Wilson, Academic Affairs, 476-5742

Medsounds Continued

Take a Look Under the Hospital

Take a look under Moffitt Hospital and you will see some amazing things.

For instance, you will discover the source of suction used in the intensive care units, the OR and other areas of the hospital.

Three enormous new vacuum pumps have been installed to deliver this suction. They replace a series of smaller, less powerful pumps that were rendered insufficient following extensive remodeling upstairs, including newly renovated and equipped intensive care units.

One of the beauties of these new pumps, says Building Management's Dick Chan, is that they are air-cooled, as opposed to the former water-cooled equipment. The water savings alone, he says, will pay for the project within a few years — not to mention the environmental benefits.

Another important development in the bowels of the building is the forthcoming improvement in the emergency backup power system. In this case, the equipment will not be replaced. Rather, the generators will be modified to work together instead of alone.

"It's like a team of horses," says Dick. "Each one alone does not have the power that can be generated by all the horses together."

Once the generators are fortified, equipment from additional areas of the hospital — he cites Radiology as an example — can be connected to the backup source.

Moffitt Elevator Disruption Begins

If you noticed, to your dismay, that one of the Moffitt elevators is out of service, please note the reason: This is part of a scheduled upgrade of the entire Moffitt elevator bank, including the service elevators.

You may recall a previous article in *Medsounds* explaining that the individual elevators will be taken out of service at intervals over a year's time, until the upgrade is complete approximately next September.

There's no question this puts a crimp on the already heavily used passageway, but the word from Administration's Clifton Louie is to please have patience. The outcome will be a more reliable set of elevators.

For the interim, the alternatives are the Long elevators (don't forget the stairs behind Long Hospital) and the Med Sci elevators.

If you have questions, call Clifton at 476-6312 or Building Management's Dick Chan at 476-3862.

Racing for the cure: (waving, left to right) Ob/gyn's Debbie McGarry and Lillian Wong, visiting Russian professor Vladimir Semiglazov and breast cancer specialist William Goodson. Semiglazov is working with Goodson on a cooperative project to study breast cancer growth rates.

Mammography Van Recognized for Public Service

In the midst of the "Race for the Cure" activities week before last, the staff of UCSF's Mobile Mammography Van received official recognition from the San Francisco Board of Supervisors.

They had just arrived at Levi Plaza to do their day's work, said Carol Gallagher, when there came a knock at the door. It was a representative from Supervisor Roberta Achtenberg's office, who right on the spot presented them with a Certificate of Honor on behalf of the entire Board for "outstanding service to the public." The citation mentions the mobile breast screening program's "key role in the early detection and prevention of breast cancer," and its "important contribution to the health and well-being" of Bay Area women.

Three days later, the van took its place on center stage at the widely publicized and well-attended "Race for the Cure" in Golden Gate Park.

More than serving as a mascot, the van was open for walk-in screenings— and they ended up doing about 20 screenings during the race, says Gail Hodgins, another staff member. For the most part these were women who participated in the race, then stopped in for a mammogram when they were finished.

About 6,000 runners and walkers — including a sizeable contingent from UCSF — participated in the event, raising about $240,000. The money will go toward a program of free mammograms for low-income women, to be provided by the UCSF van.

Last year, the mobile service provided about 2,000 mammograms under this program, supported by funds from last October's first Race for the Cure. This year, the hope is to increase that number by a 1,000 or so, says Carol.

UCSF's Mammography Van does between 8,000 and 9,000 screenings a year, currently at a cost of about $60 per screening — as opposed to as much as $200 or more that a screening might cost in a hospital or clinic.

The van opened for business in May 1985, and on the day of this interview, the van had just completed its 54,057th screening since the opening date.

In addition to Carol and Gail, the staff includes supervisor Maureen Stull, Catalina Matulic, Betty Beckmann and director Edward Sickles.

ICN *(from page 8)*

former group.

One of the interesting aspects of the program is the way in which the team tracks these kids. Since so many are from out of town and frequently from economically disadvantaged families, the team members do a fair amount of travel, setting up clinics in local communities. "We try to make the best opportunity out of the travel," says Piecuch, noting that he frequently is able to set up a lecture at a local referring hospital in conjunction with the clinic date.

The team members look at all aspects of development, including even subtle abnormalities that might be picked up just from playing with the children. Among the group are an ICN nurse (Deborah Port), a nurse practitioner (Madeleine Behle), child psychologist (Carol Leonard), physical therapist (Janet Babb), speech pathologist (Cathy Conniver) and clinical coordinator (Caroline Highley).

One of the purposes served by the followup program is to provide feedback to the ICN medical program. Which treatments are producing good outcomes? Which aren't? The information obtained from monitoring the babies is a major factor for improved future programs.

A second aspect — and one in which they become more and more successful, says Piecuch — is paving the way to a healthier future for the ICN graduates. Over the years they have learned which problems to look for in the growing child, when to look for them, which treatment is best, and when is the optimal time for treatment.

"This makes our service much more meaningful," says Piecuch. "Instead of just recording statistics and applying them to research, we continue helping the children, intervening if a problem arises and helping to make the right referrals."

In Other News . . .

In other news along the ICN lines, a FIP committee made up of doctors, nurses and administrators has taken a fresh look at some old ways of doing things and come up with some new and innovative ideas for the unit. These changes were presented at a recent gathering of Medical Center managers. Look for a summary in the next *Medsounds.*

Salesmen of the Year

Hmmm . . . let's revise that to Salesmen & Women of the Year. In any case, these are the people — all members of the Mount Zion Environmental Services staff — who brought you the popular garage sale held at Mount Zion recently. A mountain of surplus furniture and equipment, a sampling of which you see here, was assembled in the courtyard, and employees were offered first crack at the merchandise. Was it a fundraiser? "No," says department chief Rick McBride. "That wasn't the point." It was more like a fun-raiser — and a chance for employees to pick up some goods at cheap prices. The leftovers were donated to nonprofits.

Flu Shots

A reminder that flu shots now are available in Employee Heath *to hospital and clinic employees who have direct contact with acutely ill patients.* The shots will be offered as long as the supply lasts, Monday through Friday from 8:30 to 10:30 a.m. in A 707. No appointment necessary. Those unable to utilize this program should obtain the vaccine from their health care provider.

Surgery Center *(from page 8)*

such as arthroscopic or hand surgery; gynecological surgery via YAG laser or laparoscopy; plastic surgery; and dental restoration.

Some of the Center's newer or more unique services include providing dental care under general anesthesia for the mentally handicapped, doing liver biopsies in conjunction with the Liver Transplant Service, nerve blocks for Pain Clinic patients, in vitro procedures (the In Vitro lab recently moved across the hall from the Surgery Center) and biopsies for Pathology. A growing number of procedures such as these formerly were done in the inpatient OR or in various clinic sites. The relocation to the Surgery Center generally means greater convenience for both patients and medical personnel, and a savings in overall costs.

Checking In on the ICN Reunion:

What Kind of Life Can These Babies Expect?

This year's ICN reunion was bigger than ever as four to five hundred "graduates" and their family members gathered in Saunders Court for the annual Halloween party. All the little (and not so little) pixies, pumpkins, ghosts and goblins at this event started their lives on rocky footing, many as premature infants weighing as little as two pounds or less.

The sight of all these youngsters year after year, and all the ICN graduates that came before them, brings to mind the question: What are the outcomes of these children, many or most of whom would not be alive today without the intensive medical support they received in the ICN?

One of the sponsors of the annual reunion is the UCSF/Mount Zion Nursery Followup Program, which monitors the growth and development of these children.

According to Robert Piecuch (pronounced Pee-au'-zu), medical director of the Followup Program, the news gets better all the time.

In the early years of the ICN — which goes back to the '60s — the followup statistics showed that about 50% of the infants went on to manifest developmental problems or neurological abnormalities, such as cerebral palsy. With the advances of the '60s and '70s, the statistic decreased to about 20%.

Today, that figure is down to about 15%, says Piecuch, which is excitingly low, considering that the statistic for full-term babies is not that different — about 10% to 15%.

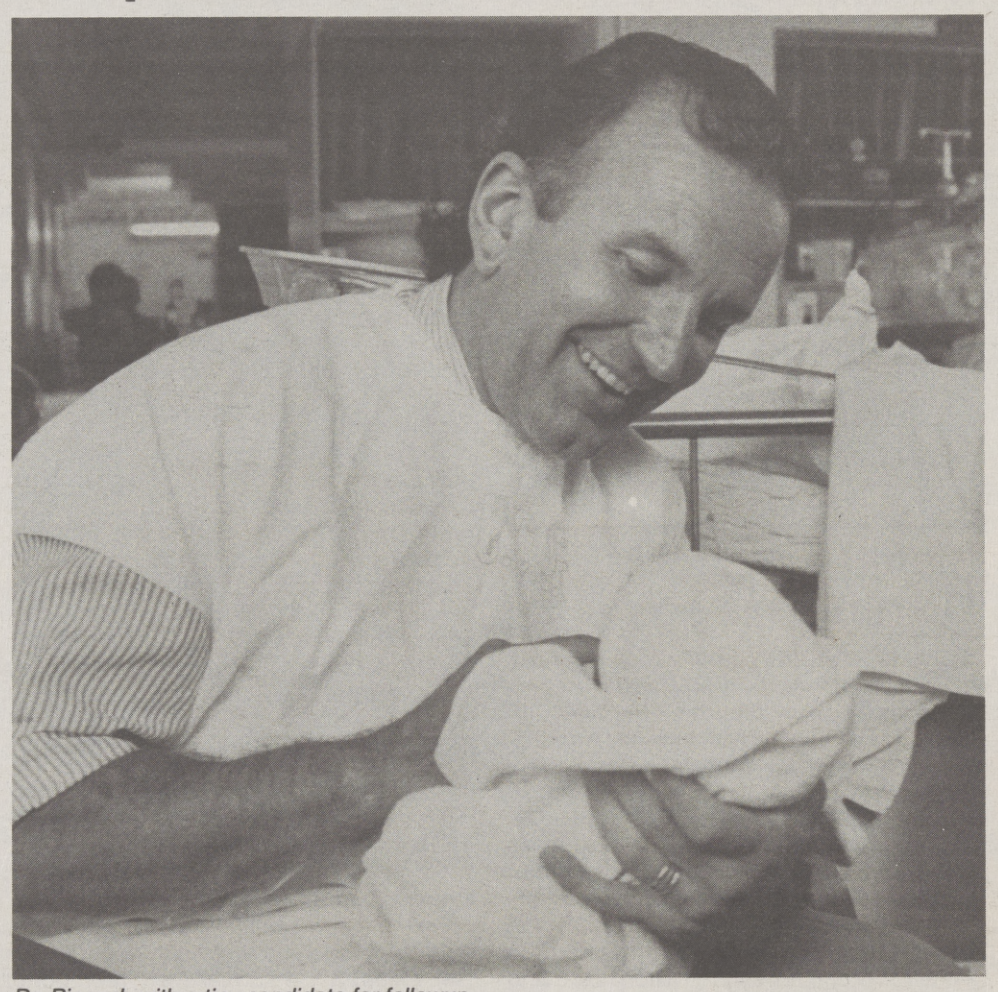
Followup programs such as the UCSF/Mount Zion program first were mandated by California Children Services in the '70s when intensive care nursery services began cropping up in California hospitals. "It appeared that much of the activity in these units was of a research nature, utilizing experimental treatment approaches," says Piecuch. "CCS wanted to make sure these efforts would prove to be worthwhile."

UCSF began following post-ICN babies as early as the '60s, under the direction of the late William Tooley. At the Mount Zion ICN, where Piecuch was affiliated, the followup program began in 1976. When the two ICNs merged, naturally the followup programs merged as well, and Piecuch took over the directorship as Dr. Tooley's health failed.

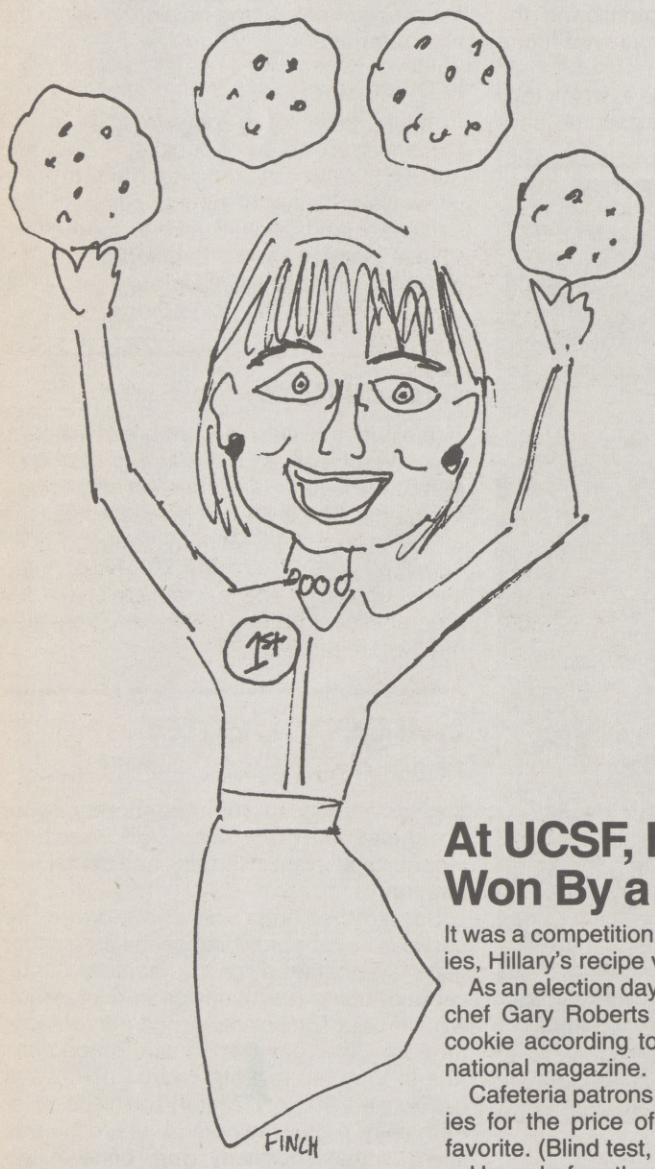
Currently, the program is monitoring the growth and development of about 1,900 children. Generally, the guidelines call for following infants of less than 1,000 grams at birth to age 12; 1,000 to 1,250 grams to eight years, and 1,250 to 1,500 to age 4 1/2. In addition to premature infants that fit into these categories, the program also follows babies who have received ECMO treatment in the ICN. (ECMO, short for extracorporeal membrane oxygenation, is a relatively new treatment for infants with lung failure. Blood is pumped from the body to a machine that simulates the lungs' function; then pumped back into the body.)

The cases in the ICN are not limited to premature babies with medical problems or ECMO babies. There are term babies with cardiac problems, congenital problems or tiny surgical patients. These babies are monitored through other systems, however, so the followup program limits its caseload to the

(continued on page 7)



Dr. Piecuch with a tiny candidate for followup



At UCSF, Hillary, Too, Won By a Landslide

It was a competition between chocolate chip cookies, Hillary's recipe versus Barbara's.

As an election day special in the Moffitt cafeteria, chef Gary Roberts baked up 30 dozen of each cookie according to recipes printed recently in a national magazine.

Cafeteria patrons were invited to buy both cookies for the price of one, and then vote for their favorite. (Blind test, of course.)

Hours before the presidential votes were tallied, all 720 cookies were eaten.

"Hillary's won hands-down," said food service supervisor Tim Dineen.

The final score was about 75% Hillary, 25% Barbara.

Thanks for voting.

A Bit of Toe Tapping in the Surgery Center

Five years ago this fall, the Ambulatory Surgery Center on the ground floor of the ACC opened its doors. Every October since that date, the Center has marked its anniversary, usually in the form of a high-spirited party among the staff to mutually celebrate their flourishing operation.

This year, says Center director Marty Bogetz, considering the Center had reached its landmark *fifth* anniversary, and considering the substantial growth of the service in these past five years, and considering all the people who have contributed to this growth, they decided to make this an all-inclusive affair, inviting everyone associated with the Center.

This meant the guest list ran the gamut from the departments of surgery and anesthesiology to medical office scheduling personnel, Radiology, Environmental Services, Medical Records, and a number of other units. "It was in the spirit of acknowledging the contributions of many people to the success of the Center," says Marty.

It was a catered affair for several hundred, held right in the Surgery Center, complete with music provided by anesthesiologist Skip Way and his band, and dancing. (All made possible by private contributions from several departments and individuals, notes Marty. No hospital funds used!)

Let's see, where are we with statistics at this point?

About 15,000 procedures — that's how many cases the Center has handled to date. They're running upwards of 30 procedures a day, and recently have expanded hours, now keeping two operating rooms open until 5 p.m. (instead of 3:30) and the Center open until 7 p.m. The staff has grown from 20 to 30.

According to nurse manager Deborah Frase, among the most common procedures performed in the Center, all done on an outpatient basis, are ophthalmology procedures, such as cataract or eye muscle surgery; minor general surgery; orthopedic procedures,

(continued on page 7)

Friendly Skies' First Family

You may remember a recent item in *Medsounds* about a new program in which United Airlines is making free flights available to out-of-town children who need medical treatment. In the Bay Area, the program has been extended to UCSF and four other hospitals and charitable organizations.

Last week, the program was used for the first time at UCSF when a couple from Columbus, Ohio, brought their 8-year-old daughter for follow-up treatment for neuroblastoma, a devastating cancer that attacks the nervous system and other parts of the body. The program covered the flight expenses for all three, enabling the child to get treatment that is not available to her in Columbus.

Brainstorming Sessions Begin Monday

If you have ideas on how the Medical Center could run more efficiently — whether it has to do with cost savings or service improvements — here's your chance to vent. The "Ideas of Value" program begins next week, and there's still time to sign up.

Between Monday, November 9, and Sunday, December 6, there will be 21 sessions in which employees can offer their ideas and opinions to the administrative staff, including Bill Kerr, Marty Diamond, Bruce Schroffel, Helen Ripple, Jackie Kuhn, Patty Perry or Ron Schumacher.

If you take a look at the schedule (your department should have one posted), you'll see there are meetings set up to accommodate all shifts at Mount Zion, Mission Center and Parnassus. Since the schedule was first published a weekend session has been set up at Mount Zion: Sunday, November 15, at 2 p.m. in A 18.

Again, everyone is welcome to participate. You don't need to do a lot of preparation. The directors are just asking for basic ideas. If you can't locate sign-up materials in your department or want more information, call Elaine Levy at 885-7293.
